Obtaining the external review related to the “Tokyo Green Bonds”

We are notifying you that, as a continuity from last year, we have obtained an evaluation by an independent third-party institution regarding the “Tokyo Green Bonds” that will be issued this fiscal year.

Obtaining the external review is recommended by the Green Bond Principles prepared by the International Capital Market Association (“ICMA”), with the purpose of securing the competency and transparency of the “Tokyo Green Bonds” and of improving the appeal to investors pursuant to the Green Bonds Issuance Policy.

Description

1. External Review Provider

We obtained the Green Bond evaluation from ISS-oekom, which is an ESG research institution, and which has a positive worldwide track record.

2. Announcement of the evaluation report

The full text of the evaluation report is posted on the Bureau of Finance website.

3. Future plans

We will take the evaluation that we have obtained into consideration for the issuance of the “Tokyo Green Bonds” planned in and after October.
